Analyst | Account Management | Data, Finance & Operations

Toronto, ON | 647-833-7146 | umairzia71@gmail.com | linkedin.com/in/UmairZia777 | github.com/umairzia

PROFESSIONAL SUMMARY

Analyst and Account Manager with 3.5+ years of Canadian experience across data analytics, accounts receivable, payments and client management, backed by a Master of Management Analytics from Queen's University. I build Python, SQL and Excel tools that automate reporting, reconcile financial records and turn raw data into decisions for management, finance and operations teams. My strongest skill is the ability to collect data from numerous sources, analyze it and bring it into a format relevant for decision-making.

PROFESSIONAL EXPERIENCE

Account Manager & Operations Analyst **Apr 2023 – Present**

Crisp Produce, Etobicoke, Toronto, ON

- **Portfolio Management:** Manage pricing, invoicing, credits, disputes and escalations for a $1M+ portfolio of 100+ B2B accounts, including national restaurant chains.
- **Account Growth:** Onboarded several $50K+ accounts during 20% yearly company growth and generated leads worth $10K per month.
- **Accounts Receivable:** Ranked 100+ accounts by risk using DSO, collection-effectiveness and AR turnover metrics, bringing the receivables cycle to within 14 days.
- **Reconciliation:** Reconcile invoices, payments, EFT remittances and credits every week, catching about $45K per year in double entries, faulty payments and missing credits.
- **Payments:** Managed card transactions and weekly Moneris sales reports for 100+ clients (2023–2025), then led the 2025 migration of their card profiles to a new platform.
- **Reporting Automation:** Built Python and Excel reporting tools that cut reporting turnaround by 72% (12.7 to 3.5 hours) and save 15+ hours per week.
- **AI-Enabled Workflows:** Automated recurring reports with AI tools, saving 250+ hours per year, and connected Claude to MoneyWorks via MCP in a test environment under 10+ guardrail rules.
- **Pricing & Procurement:** Compare ~190 product lines across price lists and invoices in a monthly vendor price-trend report, and detected a supplier price increase with the excess spend quantified.
- **Root-Cause Analysis:** Linked complaint, return and ordering data to cut product returns by 30%, and improved delivery efficiency by 55% with operations.
- **Systems Integration:** Run daily CrunchTime and Rosnet invoice integrations for chain customers (3+ years), resolve failed uploads with CrunchTime's product manager, and set up integrations in MoneyWorks.

Data Migration Specialist (Contract) **Apr 2023 – Apr 2024**

ELXR Juice Lab, Etobicoke, Toronto, ON

- **Data Migration:** Mapped the data model and migrated customer, supplier, product and invoice records from a legacy accounting system, automating steps that saved 4–5 hours per day.
- **Data Validation:** Built cleansing and validation rules that prevented $25K–$50K per month in discrepancies, reaching 100% accuracy and compliance at go-live,.

Healthcare Analytics Consultant (Freelance) **Jan 2022 – Jun 2023**

Combined Military Hospital, Pakistan

- **Survey Research:** Designed KPI patient surveys and focus groups for 3 facilities, achieving response rates 25% above projection.
- **Statistical Analysis:** Analyzed survey and social media feedback in SPSS and R and presented recommendations to hospital leadership, which adopted them.

Bookkeeper & Record Technician (Part-time) **Dec 2022 – Apr 2023**

Crisp Produce, Etobicoke, Toronto, ON

- **Bookkeeping:** Maintained customer, product and order records for 100+ clients in MoneyWorks and supported weekly payment reconciliation, leading to promotion within 5 months.

Business Development Analyst **Nov 2020 – Dec 2021**

Petroleum Exploration (Pvt) Limited, Lahore, Pakistan

- **Negotiation:** Led a $1M+ negotiation with a mining partner, securing a profit share 7.5% above projection.
- **Proposals & Presentations:** Drafted and delivered bi-monthly proposals and presentation decks for government contracts, helping win a competitive government contract.
- **Executive Briefings:** Prepared cost-benefit briefings on legal, financial and regulatory documents for senior executives, saving the legal department 100+ hours per month.

Intern **2019 (6 months)**

National Logistics Cell (NLC), Pakistan

- **Feasibility Study:** Wrote a ~6,000-word internal feasibility study on expanding into air freight for leadership, using World Bank, UN and market data, competitor profiles and a SWOT analysis.

PROJECTS & PUBLICATIONS

- **Transaction Data-Quality Pipeline:** Built a Python/Jupyter pipeline that validates, cleans and flags anomalies in 11,000+ transaction lines for a national restaurant-chain client.
- **Procurement Dashboard Generator:** Built a Python kit that generates dashboards for 80+ customers from raw order data, plus forex and oil market dashboards.
- **Network Analysis:** Built a dataset of 19 political YouTubers (2017–2018) from public content and mapped it in Gephi (github.com/umairzia/ECON_Gephi_Umair).
- **Published Article:** “What does the continued closure of the Strait of Hormuz mean for Pakistan?”, Profit by Pakistan Today, March 2026.

SKILLSET

- **Data and Programming:** SQL (BigQuery, PostgreSQL), Python (Pandas, NumPy), R, SPSS, Jupyter, Git/GitHub, Google Cloud
- **BI and Analytics:** Tableau, advanced Excel and Google Sheets (XLOOKUP, pivot tables, macros), statistical analysis, regression, Claude (Projects, skills, Claude Code, MCP), ChatGPT
- **Finance and Business Systems:** MoneyWorks, Xero, QuickBooks, Moneris, CrunchTime, Rosnet, HubSpot (familiar), AR and reconciliation, Agile and Scrum. English and Urdu (fluent), French (developing), Ontario driver’s licence
